

Why Us?

Culture / **Craftsmanship** / Service

Culture

Our culture is a common belief that all customers deserve nothing but the best we have to offer. Our team is laser focused on providing exceptional products, outstanding customer service and professional design services.

Craftsmanship

Our craft is the amalgamation of design and technology at the highest level. Our team has the experience, skills and tools to repeatedly produce quality products for our customers.

Service

Customer service is our passion and top priority. We focus on providing quality workmanship in a timely manner at a reasonable price while continually meeting or exceeding our customers expectations.

Craftsmanship Built to Scale

Culture / **Craftsmanship** / Service

All things Metal

Our vertically integrated 125K sq foot state of the art manufacturing facility gives us complete control of all projects, from custom jobs to large scale production runs. BGI offers a full range of metal fabricating services to meet all your needs. Whether you are using Carbon Steel, Stainless Steel or Aluminum our team has the experience, skills and the tools to be your one stop shop for your metal fabricating requirements.

Precision laser cutting, Shearing, Forming, Welding, Punching, Rolling, Machining as well as final finishing such as blasting, powder coating or plating.

Design

See it come to life with production and 3D design.

Production

State of the art facility and machinery makes ideas a reality.

Testing

Prototype testing to refine and perfect each project.

Service

Dedicated team managing your project at every stage.

The Right Tools

- Amada Laser FO3015-60x120 Table-4000KW-3/4"
- Amada Turret Press -Vipros 357 -30 ton
- Strippit Super 750 SG-30 ton capability-programmable CNC
- Sheet Metal Roller Hydraulic-1/4" thickness x 5' maximum
- Plasma Cutter
- Amada 250 Ton HM2204/4 Hydraulic Press Brake-14' bed
- Amada 125 Ton Brake Press - 10' length
- Amada 100 Ton Brake Press - 10' length
- Amada 50 Ton Brake Press - 6' length
- Shear 1/4" Mild Steel Maximum
- Cold Saw
- TIG Welders
- MIG Welders
- Fronius - TPS 320i C Pulse Aluminum Welder
